No Changes to Janney Global Water Index in Quarterly Rebalancing

New York, NY, March 10, 2010 -- The [Janney Global Water IndexSM](http://www.janneywaterindexes.com) (TICKER: JGI) will have no constituent changes in its quarterly rebalancing, effective 6:00 PM (EST) Sunday, March 21, 2010.

A complete list of constituents and weights will be posted on the Janney Index family website (http://janney.snetglobalindexes.com/about_the_indexes.php).

The Janney Global Water IndexSM is a capitalization-weighted, float-adjusted index of the most prominent water stocks in the world. To be included in the JGI index, stocks must pass multiple screens, including for capitalization, float, exchange listing, share price and turnover.

The Index Committee today announced a change in index methodology relating to "Special Dividends" as follows: Any 'explicitly labeled' Special Dividend or any dividend larger than 10% of the equity price is considered a special dividend and requires a price and share adjustment to the company that issued the special dividend. The adjustment will be a market neutral event and will have no effect on the divisor.

Detailed information, including constituent data, rules and price information, on the Janney family of Global Water Indexes is available at www.janneywaterindexes.com. Data is also available through most vendors of financial data.
